

incode[®]
a tyler courts & justice solution

Incode Court Online

If your court is looking for a customizable system that decreases foot traffic while increasing user satisfaction, collection rates and productivity in your court, consider Tyler Technologies' Incode Court Online solution. Defendants enjoy 24/7 online access to pay municipal court fines, including full, partial and planned payments. They can also request deferred adjudication, extensions or state-specific driver safety courses online so your staff can operate at a greater rate of efficiency.

Incode Court Online can be adapted to any size of court, too. You control the option of which features to turn on or off depending on your requirements. While comprehensive, this solution is also flexible enough to handle your future needs. When it's time to expand or change services in the future, you're ready. All it takes is just a few clicks. This solution is also fully integrated into Tyler's Court Case Management solution to eliminate the need for data export to a third-party system.

Court Benefits

- Reduces waiting lines, paperwork and data entry errors
- Imports payments and pleas directly into the Incode system
- Court controls which citations are paid online
- Eliminates duplicated data entry
- Customized web portal, including coloring, background, links and images
- Security control available with addition of application-specific roles

Defendant Benefits

- Optimized for mobile devices for easy access on the go
- View real-time balances on citations
- 24/7 access to make payments

IT-friendly

- Highest level of information security using Secure Socket Layer (SSL) technology
- Website hosted by Tyler Technologies
- Uses ASP.NET

Benefits

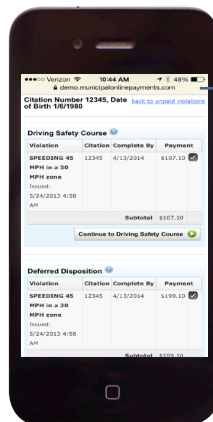

- 24/7 Access
- Court controls which features are live
- Defendants can make full or partial payments or arrange payment plan
- Eliminates need for third-party system to export data
